

Dust Control and Loading Systems, Inc.

Truck/Rail Loading Spouts

Innovative Bulk Loading System Designs

Enclosed vehicle loading spouts, or open vehicle spouts, provide excellent dust-free loading performance for trucks and rail cars. DCL has incorporated 20 years of experience in bulk loading of dry materials into this new, service-friendly, retractable spout design.

The low profile feature makes this spout the best choice when faced with limited space.

Some of the industries we serve:

- Cement
- Plastics
- Food
- Mining

Systems to service truck, rail, ship, and barges
