

Buildings and Enclosures

Steel buildings designed and manufactured to meet all of your industrial needs

Industrial applications are our forte. Because every enclosure is overbuilt with durable long-lasting materials, they're a perfect fit for use in abusive industrial environments. We use low maintenance materials to make our buildings last and keep them looking good.

We offer shelters for any type of application

Warning Lights

Help prevent costly drive-offs

Drive-offs are costly - warning lights and beacons can help. All Carbis fall prevention systems can be supplied with warning light systems to alert drivers your equipment is not in the stored position prior to driving away.

Truck Safety Barriers

Help protect valuable access equipment from being damaged by vehicle drive-offs

You spend thousands of dollars purchasing the very best access equipment, plus many man-hours researching your options. Then, in a few seconds, an accidental drive-off can take your loading rack out of action!

We have the solution...Carbis safety barriers
